

Hello Counselors!

Happy New Year and best wishes for a happy and academically awesome year!

Memorial Hospital is pleased to let you know about two separate programs that we will be bringing to your students this year. The first is the Junior Medical School program (repeated from last year) and NEW to the offerings is the UCHealth Group Career Exploration program. Both programs are detailed below.

Junior Medical School – JMS is a 3-day, immersive program designed to give your students a full view of the many different aspects of a healthcare career. It is available to junior and senior students with a GPA of 3.0 or higher who have an interest in a healthcare career. (And yes, 2018 graduated seniors may apply!) There will be 4 sessions, 15 students per session running in June, July and August, for a total of 60 students in the program.

UCHealth Career Exploration program - This program is a one day event that focuses on those students who are interested in a healthcare career not requiring a 4-year college degree. These career opportunities are in the clinic setting, ranging from running a clinic to Medical Assistants to Surgical Schedulers. This program is for your senior students (ONLY) with a GPA of 3.0 or higher who have an interest in a healthcare career. (And again, 2018 graduated seniors may apply!) There will be three sessions, 12 students per session running in April, July and August, for a total of 36 students in the program.

	Junior Medical School	Career Exploration
Student Focus	College-track/Graduate/ Medical School	Certificate/Non-college track

Program fee	\$150	Free

* Sessions 1 and 2
** Sessions 3 and 4

^a Session 1
^b Sessions 2 and 3

Over the course of the next few weeks, you will receive detailed information on both programs. I would be happy to visit your school and present this information to your students. I can talk about one or both programs. Please let me know! On-site presentations will be available through April.

UCHealth is committed to expanding the career and educational opportunities available to our community. By offering programming targeted to various student populations, we hope to be able to provide them with the experience and knowledge for them to be extraordinary in whatever field they choose.

Should you have any questions, please do not hesitate to contact me at 719-365-5372 or Beth.Konikoff@uchealth.org. I look forward to working with you throughout the rest of the year.

Warmest regards,
Beth
